

Mario Kart 112

Basically the game Mario Kart, but on 112 graphics!

The user will be prompted to a start menu, in which the user has a choice to select 'Play' or 'Quit Game'. Once the user clicks play, there will be a map select menu. After the user clicks on a certain map, the user will be prompted to a character select menu, followed by a vehicle select menu. After the user has sucessfully chosen their character and vehicle of choice, the race begins. Depending on how the track looks like, the screen will turn and the track will curve at certain points. Once the race is over, the user's score will be revealed and depending on how well they did, the user could potentially unlock a new map.
